

Dear Families,

I wish to say a few words on behalf of United Cerebral Palsy of the North Bay's WineBev Services. My daughter Ciara has been a client and beneficiary for thirteen years. Her experience there has been the best thing that could happen in her adult life, equivalent to her schooling from exceptional tots to high school completion.

The program gives her a sense of belonging and accomplishment. She has made many friendships with both clients and staff. WineBev provides a valuable service to a disadvantaged group of citizens that would be swept under the proverbial rug if not for this opportunity to participate in the American experience, that being work, socializing and commerce.

I am grateful for the care and support WineBev administration and staff provide for Ciara and her fellow clients.

Please help support the United Cerebral Palsy if you are able and so inclined.

Thank you,
Mr. Camper
