June 12-16, 2017
Monday thru Friday

Sonoma State University
1801 East Cotati Avenue
Rohnert Park, CA 94928

Registration Forms Online
www.ucpnb.org/calendar

"Cycle Without Limits" Bike Program is an instructional program that teaches children with disabilities how to ride conventional two-wheeled bicycles. The five-day camp is co-sponsored by United Cerebral Palsy of the North Bay and Sonoma State University and is located at the Sonoma State University gymnasium. The unique "Cycle without Limits" bikes use air cylinders to keep the rider safely upright while allowing for a progressively greater lean. As the rider's skill develops over the course of the camp, staff gradually adjust the air pressure in the cylinders until the rider is riding on her/his own.

Register for (Choose One):
